Subject index

Volumes 146/147 (1994)

Accidents; Automotive emissions; Fatalities; Suicides; Control benefits **146/147**, 93

Actual uses; Private cars; Operating conditions; Driving cycles; Traffic conditions; Thermal conditions; Fuel consumption **146/147**, 225

Adsorptive stripping; Platinum; Voltammetry; Road sediments **146/147**, 169

Adverse health effects; Lead; Gasoline octane quality; Low- and unleaded gasoline; Environmental hazards **146/147**, 19

Aerial photography; Forest damage; Defoliation; Traffic emissions; Remote sensing **146/147**, 149

Air pollutants; Long-term measurement; Rural motorway; Dispersion model; Carbon monoxide; Nitrogen oxide; Nitrogen dioxide **146/147**, 365

Air pollutants; Road traffic; Nitrogen oxides; PAH; VOC; Carcinogenic risk **146/147**, 263

Air pollution control; Exhaust emissions; Motor vehicles; Emission requirements; Tax incentives **146/147**, 27

Air pollution; Intersection; Gas tracers; Fluid modeling **146/147**, 425

Air pollution; Motorways; Environmental impact assessment; Handbook **146/147**, 359

Air pollution; Road traffic emissions; Forecast model; Emission factors; Emission inventories **146/147**, 351

Air quality statistics; Street-canyon; Dispersion model; Traffic pollution; Transportation planning **146/147**, 401

Airborne carbonaceous particulate matter; Scanning electron microscopy; Low atomic number X-ray detector **146/147**, 303

Ambient air; Volatile organic compounds; Carbon monoxide; Mobile Sources; Real-world measurements; Model predictions; Portable dynamometer; Tunnel study **146/147**, 209

Ambient; Manganese; Methylcyclopentadienyl manganese tricarbonyl; MMT; Metal **146/147**, 103

Animals; Lead; Cadmium; Blood; Wool; Motorways **146/147**, 185

Aromatic hydrocarbons; Vehicle emissions; Source determination **146/147**, 275

Atmospheric pollution; *Pinus radiata*; Highways **146/147**, 125

Automatic sampling device; Street runoff; Rain water; Electrical conductivity; Heavy metals; Organic micropollutants **146/147**, 515

Automobile exhaust; Diffusion; Street tunnel; Vehicle emissions **146/147**, 377

Automotive emissions; Fatalities; Accidents; Suicides; Control benefits **146/147**, 93

Automotive emissions; Lead; Toxic heavy metals; Roadside dust **146/147**, 175

Benthic communities; Lake ecosystem; Highway pollutants; Oxygen; Specific conductivity; Heavy metals; Polycyclic aromatic hydrocarbons **146/147**, 131

Blood lead levels; Traffic wardens; Pulmonary function; Noise levels; Nigeria **146/147**, 111

Blood; Lead; Cadmium; Animals; Wool; Motorways **146/147**, 185

BOD; Combined sewage overflows; Impact; COD; Heavy metals; Solids; Catchment area **146/147**, 493

Bottom sediments; Highway runoff; Detention ponds; Metal accumulation; Metal transport 146/147, 485

Burden of car passengers; Traffic emissions; Highways; Down town areas 146/147, 433

Cadmium; Lead; Animals; Blood; Wool; Motorways 146/147, 185

Cadmium; Lead; Soils; Vegetables; Gardens 146/147, 163

Cadmium; Zinc; Lead; Cation-exchange 146/147, 479

Canisters; Motor vehicle emissions; Semivolatile hydrocarbons; Tenax 146/147, 281

Carbon monoxide abatement strategy; Ozone abatement strategy; Motor vehicles; Emission modelling; Discussion of models 146/147, 333

Carbon monoxide; Air pollutants; Long-term measurement; Rural motorway; Dispersion model; Nitrogen oxide; Nitrogen dioxide 146/147, 365

Carbon monoxide; Dispersion model; PREDCO; Nitrogen oxides; Total hydrocarbons 146/147, 417

Carbon monoxide; Volatile organic compounds; Ambient air; Mobile Sources; Real-world measurements; Model predictions; Portable dynamometer; Tunnel study 146/147, 209

Carcinogenic risk; Road traffic; Air pollutants; Nitrogen oxides; PAH; VOC 146/147, 263

Catchment area; Combined sewage overflows; Impact; COD; BOD; Heavy metals; Solids 146/147, 493

Cation-exchange; Cadmium; Zinc; Lead 146/147, 479

COD; Combined sewage overflows; Impact; BOD; Heavy metals; Solids; Catchment area 146/147, 493

Combined sewage overflows; Impact; COD; BOD; Heavy metals; Solids; Catchment area 146/147, 493

Concentration distribution; Lagrange model; Vehicle emissions; Meteorology; Street canyon 146/147, 445

Congestion; Traffic control; Pollution; Urban traffic 146/147, 45

Constraints on growth; Global vehicle increase; Emissions control; Improved fuels; Directed maintenance; Tighter standards 146/147, 1

Control benefits; Automotive emissions; Fatalities; Accidents; Suicides 146/147, 93

Cost-effectiveness; Emissions; Road transport; Three-way catalyst 146/147, 217

Defoliation; Forest damage; Traffic emissions; Aerial photography; Remote sensing 146/147, 149

Design; Noise barriers; Materials 146/147, 67

Detention pond; Urban run-off; Highway run-off; Treatment systems; Phosphorus; Heavy metals 146/147, 499

Detention ponds; Highway runoff; Bottom sediments; Metal accumulation; Metal transport 146/147, 485

Detention ponds; Highway runoff; Sediment accumulation; Sedimentation rates; Modeling of sediment accumulation 146/147, 451

Developing countries; Emission control; Motor vehicles; Regulatory policy 146/147, 11

Diffusion; Street tunnel; Automobile exhaust; Vehicle emissions 146/147, 377

Directed maintenance; Global vehicle increase; Emissions control; Improved fuels; Tighter standards; Constraints on growth 146/147, 1

Discussion of models; Ozone abatement strategy; Carbon monoxide abatement strategy; Motor vehicles; Emission modelling 146/147, 333

Dispersion model; Air pollutants; Long-term measurement; Rural motorway; Carbon monoxide; Nitrogen oxide; Nitrogen dioxide 146/147, 365

Dispersion model; PREDCO; Carbon monoxide; Nitrogen oxides; Total hydrocarbons 146/147, 417

Dispersion model; Street-canyon; Traffic pollution; Air quality statistics; Transportation planning 146/147, 401

Dispersion; Motorway; Emissions; Nitrogen oxides; Ozone 146/147, 387

Down town areas; Traffic emissions; Burden of car passengers; Highways 146/147, 433

Driving cycles; Private cars; Actual uses; Operating conditions; Traffic conditions; Thermal conditions; Fuel consumption 146/147, 225

Driving patterns; Intersection design; Traffic flow emissions; Emission calculations; Traffic air pollution; Traffic environment impact 146/147, 35

Dry deposition; Ozone; Sulphur dioxide; Wet canopy 146/147, 395

Dust composition; Sedimentation sampling; Microscopy; Rubber tyre fragments; Measuring errors 146/147, 289

Electrical conductivity; Automatic sampling device; Street runoff; Rain water; Heavy metals; Organic micropollutants 146/147, 515

Emission calculations; Intersection design; Driving patterns; Traffic flow emissions; Traffic air pollution; Traffic environment impact 146/147, 35

Emission control system; NI category vehicles; Urban driving cycles; Extra-urban driving cycles; Emission standards 146/147, 191

Emission control; Motor vehicles; Regulatory policy; Developing countries 146/147, 11

Emission factors; Road traffic emissions; Forecast model; Air pollution; Emission inventories 146/147, 351

Emission inventories; Road traffic emissions; Forecast model; Air pollution; Emission factors 146/147, 351

Emission modelling; Ozone abatement strategy; Carbon monoxide abatement strategy; Motor vehicles; Discussion of models 146/147, 333

Emission requirements; Exhaust emissions; Motor vehicles; Tax incentives; Air pollution control 146/147, 27

Emission standards; NI category vehicles; Urban driving cycles; Extra-urban driving cycles; Emission control system 146/147, 191

Emissions control; Global vehicle increase; Improved fuels; Directed maintenance; Tighter standards; Constraints on growth 146/147, 1

Emissions; Cost-effectiveness; Road transport; Three-way catalyst 146/147, 217

Emissions; Motorway; Dispersion; Nitrogen oxides; Ozone 146/147, 387

Environmental effects; Transportation centers; Freight 146/147, 59

Environmental hazards; Lead; Gasoline octane quality; Adverse health effects; Low- and unleaded gasoline 146/147/147, 19

Environmental impact assessment; Air pollution; Motorways; Handbook 146/147, 359

Enzyme activity; Urban river sediments; Toxicity 146/147, 141

Ethene; Leaf injury; Motorway; Ozone; *Petunia*; *Trifolium* 146/147, 117

European Community; Road traffic emissions; Urban areas; Evolution of traffic 146/147, 253

Evaporative emissions; Transport emissions; Sensitivity analysis; Uncertainty 146/147, 325

Evolution of traffic; Road traffic emissions; Urban areas; European Community 146/147, 253

Exhaust emissions; Motor vehicles; Emission requirements; Tax incentives; Air pollution control 146/147, 27

Extra-urban driving cycles; NI category vehicles; Urban driving cycles; Emission standards; Emission control system 146/147, 191

Extractable content; Heavy metals; Vehicle soil pollution 146/147, 157

Fatalities; Automotive emissions; Accidents; Suicides; Control benefits 146/147, 93

Fluid modeling; Air pollution; Intersection; Gas tracers 146/147, 425

Food biomonitors; Trace metals; Motorways; Transportation 146/147, 309

Forecast model; Road traffic emissions; Air pollution; Emission factors; Emission inventories 146/147, 351

Forecasting models (FOREMOVE, BMW) 146/147, 339

Forest damage; Defoliation; Traffic emissions; Aerial photography; Remote sensing 146/147, 149

Freight; Transportation centers; Environmental effects 146/147, 59

Fuel consumption; Private cars; Actual uses; Operating conditions; Driving cycles; Traffic conditions; Thermal conditions 146/147, 225

Gardens; Cadmium; Lead; Soils; Vegetables 146/147, 163

Gas tracers; Air pollution; Intersection; Fluid modeling 146/147, 425

Gasoline octane quality; Lead; Adverse health effects; Low- and unleaded gasoline; Environmental hazards 146/147, 19

Global vehicle increase; Emissions control; Improved fuels; Directed maintenance; Tighter standards; Constraints on growth 146/147, 1

Growth of traffic; New roads; Urban areas; parallel streets; relief of congestion 146/147, 51

Gully pot; Urban stormwater; Runoff 146/147, 535

Handbook; Air pollution; Motorways; Environmental impact assessment 146/147, 359

Heavy metals; Automatic sampling device; Street runoff; Rain water; Electrical conductivity; Organic micropollutants 146/147, 515

Heavy metals; Combined sewage overflows; Impact; COD; BOD; Solids; Catchment area 146/147, 493

Heavy metals; Lake ecosystem; Highway pollutants; Oxygen; Specific conductivity; Polycyclic aromatic hydrocarbons; Benthic communities 146/147, 131

Heavy metals; Street runoff; Polyaromatic hydrocarbons; Nitrophenols 146/147, 457

Heavy metals; Urban run-off; Highway run-off; Treatment systems; Detention pond; Phosphorus 146/147, 499

Heavy metals; Vehicle soil pollution; Extractable content 146/147, 157

Highway drainage; Kerb-opening inlets; Water surface profile; Kerb-opening inlet discharge; Hydraulic design procedure; Interception capacity 146/147, 471

Highway pollutants; Lake ecosystem; Oxygen; Specific conductivity; Heavy metals; Polycyclic aromatic hydrocarbons; Benthic communities 146/147, 131

Highway run-off; Urban run-off; Treatment systems; Detention pond; Phosphorus; Heavy metals 146/147, 499

Highway runoff; Detention ponds; Bottom sediments; Metal accumulation; Metal transport 146/147, 485

Highway runoff; Detention ponds; Sediment accumulation; Sedimentation rates; Modeling of sediment accumulation 146/147, 451

Highway runoff; Macrophyte; Wetland; Pollutant removal 146/147, 543

Highway runoff; River sediments; Urban estuaries; Impounding; Water quality improvement 146/147, 507

Highways; *Pinus radiata*; Atmospheric pollution 146/147, 125

Highways; Traffic emissions; Burden of car passengers; Down town areas 146/147, 433

Hydraulic design procedure; Kerb-opening inlets; Highway drainage; Water surface profile; Kerb-opening inlet discharge; Interception capacity 146/147, 471

ICP-MS; Lead isotope ratios; Particulate emissions 146/147, 321

Image processing; Pollutant dispersion; Particle models 146/147, 409

Impact; Combined sewage overflows; COD; BOD; Heavy metals; Solids; Catchment area 146/147, 493

Impounding; Highway runoff; River sediments; Urban estuaries; Water quality improvement 146/147, 507

Improved fuels; Global vehicle increase; Emissions control; Directed maintenance; Tighter standards; Constraints on growth 146/147, 1

In-use testing; Vehicle emissions; Vehicle maintenance 146/147, 235

Interaction; Parked vehicle emissions; Urban run-off; Mineral-oil-type hydrocarbons (MOTH); Stormwater conduits; Non-dissolved solids 146/147, 525

Interception capacity; Kerb-opening inlets; Highway drainage; Water surface profile; Kerb-opening inlet discharge; Hydraulic design procedure 146/147, 471

Intersection design; Driving patterns; Traffic flow emissions; Emission calculations; Traffic air pollution; Traffic environment impact 146/147, 35

Intersection; Air pollution; Gas tracers; Fluid modeling 146/147, 425

Kerb-opening inlet discharge; Kerb-opening inlets; Highway drainage; Water surface profile; Hydraulic design procedure; Interception capacity 146/147, 471

Kerb-opening inlets; Highway drainage; Water surface profile; Kerb-opening inlet discharge; Hydraulic design procedure; Interception capacity 146/147, 471

Lagrange model; Concentration distribution; Vehicle emissions; Meteorology; Street canyon 146/147, 445

Lake ecosystem; Highway pollutants; Oxygen; Specific conductivity; Heavy metals; Polycyclic aromatic hydrocarbons; Benthic communities 146/147, 131

Lead isotope ratios; ICP-MS; Particulate emissions 146/147, 321

Lead; Automotive emissions; Toxic heavy metals; Roadside dust 146/147, 175

Lead; Cadmium; Animals; Blood; Wool; Motorways 146/147, 185

Lead; Cadmium; Soils; Vegetables; Gardens 146/147, 163

Lead; Cadmium; Zinc; Cation-exchange 146/147, 479

Lead; Gasoline octane quality; Adverse health effects; Low- and unleaded gasoline; Environmental hazards 146/147, 19

Leaf injury; Ethene; Motorway; Ozone; *Petunia*; *Trifolium* 146/147, 117

Long-term measurement; Air pollutants; Rural motorway; Dispersion model; Carbon monoxide; Nitrogen oxide; Nitrogen dioxide 146/147, 365

Low atomic number X-ray detector; Airborne carbonaceous particulate matter; Scanning electron microscopy 146/147, 303

Low- and unleaded gasoline; Lead; Gasoline octane quality; Adverse health effects; Environmental hazards 146/147, 19

Macrophyte; Highway runoff; Wetland; Pollutant removal 146/147, 543

Manganese-based anti-knock additive (MMT) 146/147, 245

Manganese; Methylcyclopentadienyl manganese tricarbonyl; MMT; Ambient; Metal 146/147, 103

Materials; Noise barriers; Design 146/147, 67

Measuring errors; Sedimentation sampling; Microscopy; Rubber tyre fragments; Dust composition 146/147, 289

Metal accumulation; Highway runoff; Detention ponds; Bottom sediments; Metal transport 146/147, 485

Metal transport; Highway runoff; Detention ponds; Bottom sediments; Metal accumulation 146/147, 485

Metal; Manganese; Methylcyclopentadienyl manganese tricarbonyl; MMT; Ambient 146/147, 103

Meteorology; Lagrange model; Concentration distribution; Vehicle emissions; Street canyon 146/147, 445

Methylcyclopentadienyl manganese tricarbonyl; Manganese; MMT; Ambient; Metal 146/147, 103

Microscopy; Sedimentation sampling; Rubber tyre fragments; Dust composition; Measuring errors 146/147, 289

Mineral-oil-type hydrocarbons (MOTH); Parked vehicle emissions; Urban run-off; Stormwater conduits; Non-dissolved solids; Interaction 146/147, 525

MMT; Manganese; Methylcyclopentadienyl manganese tricarbonyl; Ambient; Metal 146/147, 103

Mobile Sources; Volatile organic compounds; Carbon monoxide; Ambient air; Real-world measurements; Model predictions; Portable dynamometer; Tunnel study 146/147, 209

Model predictions; Volatile organic compounds; Carbon monoxide; Ambient air; Mobile Sources; Real-world measurements; Portable dynamometer; Tunnel study 146/147, 209

Modeling of sediment accumulation; Highway runoff; Detention ponds; Sediment accumulation; Sedimentation rates 146/147, 451

Motor vehicle emissions; Particulates; Public nuisance; Social surveys 146/147, 81

Motor vehicle emissions; Semivolatile hydrocarbons; Tenax; Canisters 146/147, 281

Motor vehicles; Emission control; Regulatory policy; Developing countries 146/147, 11

Motor vehicles; Exhaust emissions; Emission requirements; Tax incentives; Air pollution control 146/147, 27

Motor vehicles; Ozone abatement strategy; Carbon monoxide abatement strategy; Emission modelling; Discussion of models 146/147, 333

Motorway; Emissions; Dispersion; Nitrogen oxides; Ozone 146/147, 387

Motorway; Ethene; Leaf injury; Ozone; *Petunia*; *Trifolium* 146/147, 117

Motorways; Air pollution; Environmental impact assessment; Handbook 146/147, 359

Motorways; Food biomonitors; Trace metals; Transportation 146/147, 309

Motorways; Lead; Cadmium; Animals; Blood; Wool 146/147, 185

New roads; Growth of traffic; Urban areas; parallel streets; Relief of congestion 146/147, 51

NI category vehicles; Urban driving cycles; Extra-urban driving cycles; Emission standards; Emission control system 146/147, 191

Nigeria; Traffic wardens; Blood lead levels; Pulmonary function; Noise levels 146/147, 111

Nitrogen dioxide; Air pollutants; Long-term measurement; Rural motorway; Dispersion model; Carbon monoxide; Nitrogen oxide 146/147, 365

Nitrogen oxide; Air pollutants; Long-term measurement; Rural motorway; Dispersion model; Carbon monoxide; Nitrogen dioxide 146/147, 365

Nitrogen oxides; Dispersion model; PREDCO; Carbon monoxide; Total hydrocarbons 146/147, 417

Nitrogen oxides; Motorway; Emissions; Dispersion; Ozone 146/147, 387

Nitrogen oxides; Road traffic; Air pollutants; PAH; VOC; Carcinogenic risk 146/147, 263

Nitrophenols; Street runoff; Heavy metals; Polyaromatic hydrocarbons 146/147, 457

Noise barriers; Materials; Design 146/147, 67

Noise levels; Traffic wardens; Blood lead levels; Pulmonary function; Nigeria 146/147, 111

Noise; Road; Railways; Vehicles; Prediction; Simulation 146/147, 73

Non-dissolved solids; Parked vehicle emissions; Urban run-off; Mineral-oil-type hydrocarbons (MOTH); Stormwater conduits; Interaction 146/147/147, 525

On-road; Remote sensing; Vehicle emissions 146/147, 297

Operating conditions; Private cars; Actual uses; Driving cycles; Traffic conditions; Thermal conditions; Fuel consumption 146/147, 225

Organic micropollutants; Automatic sampling device; Street runoff; Rain water; Electrical conductivity; Heavy metals 146/147, 515

Oxygen; Lake ecosystem; Highway pollutants; Specific conductivity; Heavy metals; Polycyclic aromatic hydrocarbons; Benthic communities 146/147, 131

Ozone abatement strategy; Carbon monoxide abatement strategy; Motor vehicles; Emission modelling; Discussion of models 146/147, 333

Ozone; Dry deposition; Sulphur dioxide; Wet canopy 146/147, 395

Ozone; Ethene; Leaf injury; Motorway; *Petunia*; *Trifolium* 146/147, 117

Ozone; Motorway; Emissions; Dispersion; Nitrogen oxides 146/147, 387

PAH; Road traffic; Air pollutants; Nitrogen oxides; VOC; Carcinogenic risk 146/147, 263

parallel streets; Growth of traffic; New roads; Urban areas; Relief of congestion 146/147, 51

Parked vehicle emissions; Urban run-off; Mineral-oil-type hydrocarbons (MOTH); Stormwater conduits; Non-dissolved solids; Interaction 146/147, 525

Particle models; Pollutant dispersion; Image processing 146/147, 409

Particulate emissions; Lead isotope ratios; ICP-MS 146/147, 321

Particulates; Motor vehicle emissions; Public nuisance; Social surveys 146/147, 81

Permeability; Porous asphalt; Properties of the permeate; Pollution loads 146/147, 465

***Petunia*;** Ethene; Leaf injury; Motorway; Ozone; *Trifolium* 146/147, 117

Phosphorus; Urban run-off; Highway run-off; Treatment systems; Detention pond; Heavy metals 146/147, 499

***Pinus radiata*;** Highways; Atmospheric pollution 146/147, 125

Platinum; Adsorptive stripping; Voltammetry; Road sediments 146/147, 169

Pollutant dispersion; Image processing; Particle models 146/147, 409

Pollutant removal; Highway runoff; Macrophyte; Wetland 146/147, 543

Pollution loads; Porous asphalt; Permeability; Properties of the permeate 146/147, 465

Pollution; Traffic control; Congestion; Urban traffic 146/147, 45

Polyaromatic hydrocarbons; Street runoff; Heavy metals; Nitrophenols 146/147, 457

Polycyclic aromatic hydrocarbons; Lake ecosystem; Highway pollutants; Oxygen; Specific conductivity; Heavy metal; Benthic communities 146/147, 131

Porous asphalt; Permeability; Properties of the permeate; Pollution loads 146/147, 465

Portable dynamometer; Volatile organic compounds; Carbon monoxide; Ambient air; Mobile Sources; Real-world measurements; Model predictions; Tunnel study 146/147, 209

PREDCO; Dispersion model; Carbon monoxide; Nitrogen oxides; Total hydrocarbons 146/147, 417

Prediction; Noise; Road; Railways Vehicles; Simulation 146/147, 73

Private cars; Actual uses; Operating conditions; Driving cycles; Traffic conditions; Thermal conditions; Fuel consumption 146/147, 225

Properties of the permeate; Porous asphalt; Permeability; Pollution loads 146/147, 465

Public nuisance; Motor vehicle emissions; Particulates; Social surveys 146/147, 81

Pulmonary function; Traffic wardens; Blood lead levels; Noise levels; Nigeria 146/147, 111

Railways; Noise; Road; Vehicles; Prediction; Simulation 146/147, 73

Rain water; Automatic sampling device; Street runoff; Electrical conductivity; Heavy metals; Organic micropollutants 146/147, 515

Real-world measurements; Volatile organic compounds; Carbon monoxide; Ambient air; Mobile Sources; Model predictions; Portable dynamometer; Tunnel study 146/147, 209

Regulatory policy; Emission control; Motor vehicles; Developing countries 146/147, 11

Relief of congestion; Growth of traffic; New roads; Urban areas; parallel streets 146/147, 51

Remote sensing; Forest damage; Defoliation; Traffic emissions; Aerial photography 146/147, 149

Remote sensing; Vehicle emissions; On-road 146/147, 297

River sediments; Highway runoff; Urban estuaries; Impounding; Water quality improvement 146/147, 507

Road sediments; Platinum; Adsorptive stripping; Voltammetry 146/147, 169

Road traffic emissions; Forecast model; Air pollution; Emission factors; Emission inventories 146/147, 351

Road traffic emissions; Urban areas; Evolution of traffic; European Community 146/147, 253

Road traffic; Air pollutants; Nitrogen oxides; PAH; VOC; Carcinogenic risk 146/147, 263

Road transport; Emissions; Cost-effectiveness; Three-way catalyst 146/147, 217

Road; Noise; Railways; Vehicles; Prediction; Simulation 146/147, 73

Roadside dust; Automotive emissions; Lead; Toxic heavy metals 146/147, 175

Rubber tyre fragments; Sedimentation sampling; Microscopy; Dust composition; Measuring errors 146/147, 289

Runoff; Urban stormwater; Gully pot 146/147, 535

Rural motorway; Air pollutants; Long-term measurement; Dispersion model; Carbon monoxide; Nitrogen oxide; Nitrogen dioxide 146/147, 365

Scanning electron microscopy; Airborne carbonaceous particulate matter; Low atomic number X-ray detector 146/147, 303

Sediment accumulation; Highway runoff; Detention ponds; Sedimentation rates; Modeling of sediment accumulation 146/147, 451

Sedimentation rates; Highway runoff; Detention ponds; Sediment accumulation; Modeling of sediment accumulation 146/147, 451

Sedimentation sampling; Microscopy; Rubber tyre fragments; Dust composition; Measuring errors 146/147, 289

Semivolatile hydrocarbons; Motor vehicle emissions; Tenax; Canisters 146/147, 281

Sensitivity analysis; Evaporative emissions; Transport emissions; Uncertainty 146/147, 325

Simulation; Noise; Road; Railways; Vehicles; Prediction 146/147, 73

Social surveys; Motor vehicle emissions; Particulates; Public nuisance 146/147, 81

Soils; Cadmium; Lead; Vegetables; Gardens 146/147, 163

Solids; Combined sewage overflows; Impact; COD; BOD; Heavy metals; Catchment area 146/147, 493

Source determination; Aromatic hydrocarbons; Vehicle emissions 146/147, 275

Specific conductivity; Lake ecosystem; Highway pollutants; Oxygen; Heavy metals; Polycyclic aromatic hydrocarbons; Benthic communities 146/147, 131

Stormwater conduits; Parked vehicle emissions; Urban run-off; Mineral-oil-type hydrocarbons (MOTH); Non-dissolved solids; Interaction 146/147, 525

Street canyon; Lagrange model; Concentration distribution; Vehicle emissions; Meteorology 146/147, 445

Street runoff; Automatic sampling device; Rain water; Electrical conductivity; Heavy metals; Organic micropollutants 146/147, 515

Street runoff; Heavy metals; Polyaromatic hydrocarbons; Nitrophenols 146/147, 457

Street tunnel; Diffusion; Automobile exhaust; Vehicle emissions 146/147, 377

Street-canyon; Dispersion model; Traffic pollution; Air quality statistics; Transportation planning 146/147, 401

Suicides; Automotive emissions; Fatalities; Accidents; Control benefits 146/147, 93

Sulphur dioxide; Dry deposition; Ozone; Wet canopy 146/147, 395

Tax incentives; Exhaust emissions; Motor vehicles; Emission requirements; Air pollution control 146/147, 27

Tenax; Motor vehicle emissions; Semivolatile hydrocarbons; Canisters 146/147, 281

Thermal conditions; Private cars; Actual uses; Operating conditions; Driving cycles; Traffic conditions; Fuel consumption 146/147, 225

Three-way catalyst; Emissions; Cost-effectiveness; Road transport 146/147, 217

Tighter standards; Global vehicle increase; Emissions control; Improved fuels; Directed maintenance; Constraints on growth 146/147, 1

Total hydrocarbons; Dispersion model; PREDCO; Carbon monoxide; Nitrogen oxides 146/147, 417

Toxic heavy metals; Automotive emissions; Lead; Roadside dust 146/147, 175

Toxicity; Enzyme activity; Urban river sediments 146/147, 141

Trace metals; Food biomonitors; Motorways; Transportation 146/147, 309

Traffic air pollution; Intersection design; Driving patterns; Traffic flow emissions; Emission calculations; Traffic environment impact 146/147, 35

Traffic conditions; Private cars; Actual uses; Operating conditions; Driving cycles; Thermal conditions; Fuel consumption 146/147, 225

Traffic control; Pollution; Congestion; Urban traffic 146/147, 45

Traffic emissions; Burden of car passengers; Highways; Down town areas 146/147, 433

Traffic emissions; Forest damage; Defoliation; Aerial photography; Remote sensing 146/147, 149

Traffic environment impact; Intersection design; Driving patterns; Traffic flow emissions; Emission calculations; Traffic air pollution 146/147, 35

Traffic flow emissions; Intersection design; Driving patterns; Emission calculations; Traffic air pollution; Traffic environment impact 146/147, 35

Traffic pollution; Street-canyon; Dispersion model; Air quality statistics; Transportation planning 146/147, 401

Traffic wardens; Blood lead levels; Pulmonary function; Noise levels; Nigeria 146/147, 111

Transport emissions; Evaporative emissions; Sensitivity analysis; Uncertainty 146/147, 325

Transportation centers; Environmental effects; Freight 146/147, 59

Transportation planning; Street-canyon; Dispersion model; Traffic pollution; Air quality statistics 146/147, 401

Transportational; Food biomonitors; Trace metals; Motorways 146/147, 309

Treatment systems; Urban run-off; Highway run-off; Detention pond; Phosphorus; Heavy metals 146/147, 499

Trifolium; Ethene; Leaf injury; Motorway; Ozone; *Petunia* 146/147, 117

Tunnel study; Volatile organic compounds; Carbon monoxide; Ambient air; Mobile Sources; Real-world measurements; Model predictions; Portable dynamometer 146/147, 209

Uncertainty; Evaporative emissions; Transport emissions; Sensitivity analysis 146/147, 325

Urban areas; Growth of traffic; New roads; parallel streets; Relief of congestion 146/147, 51

Urban areas; Road traffic emissions; Evolution of traffic; European Community 146/147, 253

Urban driving cycles; NI category vehicles; Extra-urban driving cycles; Emission standards; Emission control system 146/147, 191

Urban estuaries; Highway runoff; River sediments; Impounding; Water quality improvement 146/147, 507

Urban river sediments; Enzyme activity; Toxicity **146/147, 141**

Urban run-off; Highway run-off; Treatment systems; Detention pond; Phosphorus; Heavy metals **146/147, 499**

Urban run-off; Parked vehicle emissions; Mineral-oil-type hydrocarbons (MOTH); Stormwater conduits; Non-dissolved solids; Interaction **146/147, 525**

Urban stormwater; Runoff; Gully pot **146/147, 535**

Urban traffic; Traffic control; Pollution; Congestion **146/147, 45**

Vegetables; Cadmium; Lead; Soils; Gardens **146/147, 163**

Vehicle emissions; Aromatic hydrocarbons; Source determination **146/147, 275**

Vehicle emissions; Diffusion; Street tunnel; Automobile exhaust **146/147, 377**

Vehicle emissions; Lagrange model; Concentration distribution; Meteorology; Street canyon **146/147, 445**

Vehicle emissions; Remote sensing; On-road **146/147, 297**

Vehicle emissions; Vehicle maintenance; In-use testing **146/147, 235**

Vehicle maintenance; Vehicle emissions; In-use testing **146/147, 235**

Vehicle soil pollution; Heavy metals; Extractable content **146/147, 157**

Vehicles; Noise; Road; Railways; Prediction; Simulation **146/147, 73**

VOC; Road traffic; Air pollutants; Nitrogen oxides; PAH; Carcinogenic risk **146/147/147, 263**

Volatile organic compounds; Carbon monoxide; Ambient air; Mobile Sources; Real-world measurements; Model predictions; Portable dynamometer; Tunnel study **146/147, 209**

Voltammetry; Platinum; Adsorptive stripping; Road sediments **146/147, 169**

Water quality improvement; Highway runoff; River sediments; Urban estuaries; Impounding **146/147, 507**

Water surface profile; Kerb-opening inlets; Highway drainage; Kerb-opening inlet discharge; Hydraulic design procedure; Interception capacity **146/147, 471**

Wet canopy; Dry deposition; Ozone; Sulphur dioxide **146/147, 395**

Wetland; Highway runoff; Macrophyte; Pollutant removal **146/147, 543**

Wool; Lead; Cadmium; Animals; Blood; Motorways **146/147, 185**

Zinc; Cadmium; Lead; Cation-exchange **146/147, 479**
